Pythagoras

Theorem

Statement

Pythagoras

theorem states

that " In a right-

angled triangle, the

square of the

hypotenuse side is

equal to the sum of

Access Free 10 5 The

Squares of the
other two sides “.

The sides of this
triangle have been
named as

Perpendicular,

Base and

Hypotenuse. Here,

the hypotenuse is

the longest side, as

it is opposite to the

angle 90° .
