How should you grow your organization? It's one of the most challenging questions an executive team faces—and the wrong answer can break your firm. The problem is most firms' growth strategies

Download Ebook Hero Honda Engine

emphasize just one type of growth—some focus on organic growth, others on M&A. When these strategies falter, the common response is simply to try harder—but firms falling into this “implementation trap” usually end up losing out to a competitor whose approach is more inclusive. So where do you start? By asking the right questions, argue INSEAD’s Laurence Capron and coauthor Will Mitchell, of the Rotman School of Management at the University of Toronto and Duke University’s Fuqua School of Business.

Drawing on decades of research and teaching, Capron and Mitchell find that a firm’s aptitude for determining the best resource pathways for growth has a defining impact on its success. They’ve come up with a helpful framework, reflecting practices of a variety of successful global organizations, to determine which path is best for yours. The resource pathways

framework is built around three strategic questions: □

BUILD: Are your existing internal resources relevant for developing the new resources that you have targeted for growth? □

BORROW: Could you obtain the targeted resources via an effective relationship with a resource partner? □

BUY: Do you need broad and deep relationships with your resource provider?

Written for large multinationals and emerging firms alike, Build, Borrow, or Buy will help solve a perennial question and will guide you through change while priming your organization for optimal growth.

In today’s world, ‘change’ is the only ‘constant’ factor. In the last few decades, there has been a radical change in how organizations function. To survive in this highly volatile environment, companies need a long-term strategic vision and thinking. In light of this,

'strategic management' has become a significant topic and is taught as the core subject in MBA/PGDM programmes in Indian universities and business schools. This is a book written in the context of the Indian business environment but with a global orientation. It is comprehensive and contemporary in its approach.

When her mother passed away, author Heta Pandit found herself the owner of four historic houses. All of Pandit's conversations revolve around her four houses: their upkeep, their leaking roofs, their Minton floors, their refurbishments, their stories, and the spirits that inhabit them. In *There's More to Life than a House in Goa*, she offers a personal history of the houses she owns in Mumbai, Panchgani, and Goa in India. Interwoven with the stories of several generations, this memoir is not just about houses, but it also shares a capsule on social history at a micro level. It provides a reflection of the eccentricities and quirks of the extraordinary community of Parsis, immigrants from Iran, and their adaptation to the social and cultural customs in the land of their adoption. *There's More to Life than a House in Goa* talks about personal history and recalls family values, remembering the way things were. After all, the stories of the houses are also the stories of the people who inhabit them.
